Highly absorbent nonwoven floor covering

During painting and finishing work, floors and stairs deserve the reliable protection of PrimaCover Absorb. This nonwoven floor covering is resistant to, among other things, solvent-containing liquids such as varnishes, glues and degreasers.

PrimaCover Absorb is highly absorbent, self-adhesive, shock absorbent as well as lint-free. The fibres in the top layer are fluid-binding. This means that spilt liquids are safely drawn into the top layer and permanently absorbed into the fibres.
