## Dirt-Keeper

### Sticky mat with numbered layers

PrimaCover Dirt-Keeper is a sticky mat consisting of a reusable frame with 30 numbered adhesive layers. These layers retain up to 90% of walk-in dirt during renovations and refurbishments. Even dirt and dust from rolling equipment such as wheelbarrows adhere to the surface. Thanks to PrimaCover Dirt-Keeper, unwanted spreading of dust and dirt is prevented.

During the shell-construction phase, PrimaCover Dirt-Keeper ensures that adjacent areas remain clean. During the finishing phase, PrimaCover Dirt-Keeper is used to prevent dirt from being transported to the rebuilt space, so that the new floor is spared.

When the top adhesive layer is saturated, it can be easily removed thanks to the clear numbering, after which the next layer is immediately ready for use.

### Properties:

- ✓ Strong reusable frame with non-slip underside
- ✓ Numbered layers for efficient use
- ✓ Easy to take to any project
- ✓ Representative solution
- ✓ Possibility to apply your own logo
- ✓ Thanks to the refill sets, you can use it over and over again
- ✓ Available in two sizes:  
75cm x 116cm | 62cm x 77cm

Install on thoroughly dried surfaces.
