### PrimaCover Premium film and fleece knife

The PrimaCover Premium film and fleece knife is designed for safe and easy cutting of various materials: from our protection fleeces and protective films, to tapes and cardboard. Thanks to its ergonomic grip and lightweight design, the knife fits comfortably in your hand.

With a convenient spare blade stored in the handle, this knife is an essential tool to keep close. Each blade has two sharp edges, giving you four cutting surfaces per knife.

Replacing the blade is quick and safe. Simply open the top of the handle by hand to access the blade compartment and unlock the robust blade head in one smooth motion.
