Lightweight absorbent spun-bonded fabric with a strong liquid-proof film underneath; diffusion-closed

- ◆ Liquid-proof
- ◆ Resistant to wear and tearing
- ◆ Absorbent

**Application range**

- ◆ For covering flat, hard surfaces when working indoors, protects the substrate from mechanical damage and moisture.
- ◆ Not suitable for porous surfaces.
- ◆ Not suitable for wet or freshly laid floors. Risk of waterlogging and associated negative changes to the floor.

Installation instruction

- ◆ The substrate must be clean, dry, pressure-resistant, dust- and grease free.
- ◆ Existing floor heating must be switched off.
- ◆ Lay the non-woven on the floor and fix the edges and corners with a suitable tape.
- ◆ Cut the non-woven at edges and corners with a safety knife.
- ◆ Do not lay over cables, protruding objects or other elevations, trip hazard!
- ◆ When laying several sheets next to each other, allow them to overlap by 10cm, press firmly and, if necessary, fix with a suitable tape.
- ◆ Check the surface of the board regularly and clean if necessary
- ◆ If the non-woven is damaged, remove it and lay out new fleece, this is the only way to ensure reliable protection of the substrate.

Re-usability

- ◆ Test the suitability of the product in advance in an inconspicuous place.
- ◆ Before re-use, check the underside for dirt and remove if necessary.

Note

- ◆ Test the suitability of the product in advance.
- ◆ No acceptance of liability for incorrect usage.
- ◆ It is absolutely necessary to pay attention to the installation instructions and application range!
- ◆ Always store in a dry place!
- ◆ 3 Months after installation, the non-woven should be removed from the surface. It is recommended to protect the non-woven from high temperatures and strong direct sunlight, as this could affect its technical characteristics.

Disposal

The non-woven can be disposed of in landfills after use, with dried paint or plaster residues, in compliance with official regulations.
