

# PRIMACOVER®

***Temporary protections materials***  
for construction, finishing and renovation

## PrimaCover Basic

Protects against moisture and dirt on various dry surfaces. PrimaCover Basic fulfills the main general requirements for application e.g. in renovation and maintenance work.

### Properties:

- Liquid-proof
- Shock absorbing
- Light
- Self-adhesive
- Made of recycled polyester fibres

### Application:

- For all completely dry surfaces
- Suitable for floors and stairs

Light (140gr/m<sup>2</sup>)

2m x 50m # 900010 | 1m x 50m # 900271 | 1m x 25m # 900275 | 0,65m x 25m # 900276

## PrimaCover Standard

Excellent protection against dirt, moisture, rolling material and falling tools during building, renovation and maintenance work. Suitable for various dry surfaces.

### Properties:

- Liquid-proof
- Shock absorbing
- Self-adhesive
- Re-usable
- Made of recycled polyester fibres

### Application:

- For all completely dry surfaces
- Suitable for floors and stairs

Medium-heavy (180gr/m<sup>2</sup>)

2m x 50m # 900031 | 1m x 50m # 900030 | 1m x 25m # 900032 | 0,65m x 25m # 900033

## PrimaCover Paint

Painter fleece is available in many quality grades, PrimaCover Paint is a high-quality, moisture-absorbing and multifunctional painter fleece. The underside is coated with a robust non-slip PE film, which prevents moisture penetration.

### Properties:

- Absorbent
- Liquid-proof
- Anti-slip
- Shock absorbing
- Re-usable

### Application:

- For all completely dry surfaces
- For painting work

High-quality non-woven  
absorbing covering

2m x 50m # 900042 | 1m x 50m # 900041 | 1m x 25m # 900043

## PrimaCover Absorb

Self-adhesive liquid proof non-woven covering. Provided with a viscose top layer, enabling it to absorb large quantities of fluid. Even resistant to solvent-based fluids such as lacquers, adhesives and degreasers. Ideal for painting, assembly and maintenance work.

### Properties:

- Enormous absorption capacity (1 liter/m<sup>2</sup>)
- Liquid proof and solvent-resistant
- Anti-slip
- Self-adhesive
- Shock absorbing
- Lint-free

### Application:

- For all completely dry surfaces
- Suitable for floors and stairs

Highly absorbent, lint-free  
and resistant to solvents

1m x 25m # 900037

## PrimaCover Active

Safe breathable non-woven covering for freshly laid and recently treated surfaces of natural stone, exposed concrete, etc. Provided with a membrane on top, that allows moisture to escape and prevents the penetration of liquids.

### Properties:

- Breathable (1.2l/m<sup>2</sup>/24h)
- Liquid-proof
- Anti-slip
- Self-adhesive
- Shock absorbing

### Application:

- For freshly laid and recently treated surfaces of natural stone, exposed concrete, etc.
- For natural stone and cast floors
- Suitable for floors and stairs

Breathable

2m x 50m # 900045 | 1m x 50m # 900044 | 1m x 25m # 900046

## PrimaCover Evapo

Vapour-open non-woven covering for moisture-sensitive surfaces such as ceramic tiles and wooden floors. A special membrane allows moisture to escape from underneath and prevents liquids from penetrating.

### Properties:

- Vapour-open (70g/m<sup>2</sup>/24h)
- Liquid-proof
- Anti-slip
- Self-adhesive
- Impact absorbing

### Application:

- Specially developed for newly laid and recently treated floors
- For ceramic tiles and wooden floors
- Suitable for floors and stairs

Vapour-open

1m x 50m # 900039 | 1m x 25m # 900040

## PrimaCover Antistatic

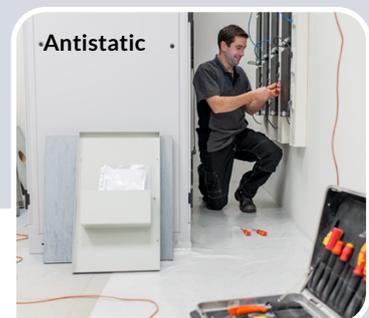

Antistatic non-woven covering for professional protection against dirt during building and installation work. Sensitive equipment and machines are protected against electrostatic discharge by means of the added antistatic fibres. This also makes it suitable for technical rooms.

### Properties:

- Prevents static discharge
- Impact-absorbing
- Self-adhesive
- Re-usable

### Application:

- Protects surfaces from water, paint and mechanical damage
- Suitable for floors and stairs

Antistatic

1m x 25m # 900011

## PrimaCover Robust

Protects against damage from debris, falling tools, building stamps, water and paint, both indoors and outdoors. Especially developed for prefabricated concrete elements and other substrates that are subjected to heavy loads during the construction and renovation process.

### Properties:

- Extra strong
- Liquid-proof
- Anti-slip
- Self-adhesive
- Shock absorbing

### Application:

- For (precast) concrete elements
- Suitable for floors and stairs
- For indoor and outdoor use

For heavy loads  
indoors and outdoors  
(300gr/m<sup>2</sup>)

2m x 25m # 900035 | 1m x 25m # 900034

## PrimaCover Carpetsaver

PrimaCover Carpetsaver was specially developed for covering carpets. This solid self-adhesive non-woven covering with a bottom layer of impermeable film, offers excellent protection during building work, renovation, plastering and painting.

### Properties:

- Extra strong due to the combination of LDPE film with a top layer made of recycled polyester fibres
- Protects against mechanical damage
- Liquid-proof
- Self-adhesive
- Easy to use
- Repositionable
- Reliable solvent-based adhesive

### Application:

- Especially developed for carpets
- Suitable for floors and stairs

Extra strong for carpet

1m x 50m # 900014 | 0,65m x 50m # 900013

## PrimaCover Hardfloorsaver

Strong, reliable substrate for climbing materials. Top layer of non-slip polyester fleece with an under layer of impenetrable self-adhesive film. Ideal for project design, construction, finishing, renovation and painting.

### Properties:

- Extra strong due to the combination of LDPE film with a top layer made of recycled polyester fibres
- Protects against mechanical damage
- Liquid-proof
- Easy to use
- Self-adhesive

### Application

- Suitable for floors and stairs
- For all completely dry surfaces

Extra strong and non-slip,  
for hard surfaces

## PrimaCover Standard FR

Flame retardant self-adhesive non-woven covering for hard dried surfaces. Protects floors and stairs against moisture, paint and mechanical damage. Ideal during construction, finishing, renovation and (technical) maintenance at locations where flame retardant protection is required or desired.

### Properties:

- Flame retardant (EN 13501-1 Bfl s1)
- Liquid proof
- Impact absorbing
- Self-adhesive
- Re-usable

### Application:

- For locations with fire safety requirements
- Suitable for floors and stairs

Flame retardant

1m x 50m # 900602 | 1m x 25m # 900601 | 0,65m x 25m # 900600

## PrimaCover Defend

Thick non-woven panel with high load-bearing capacity for maximum protection of various surfaces. Prevents mechanical damage caused by debris, point loads, rollers, etc. The large size also enables large areas to be efficiently protected.

### Properties:

- 100% vapour-open, hence suitable for damp surfaces, natural stone and parquet
- Easy to customise
- Very high mechanical protective effect, even with point loads
- Re-usable
- Practically lint-free

Unique product  
80x120cm!

0,80m x 1,20m # 900029

## PrimaCover Combi

Universal, liquid proof non-woven covering. The light, absorbent spun-bonded fabric has a strong impermeable film on the underside. Suitable for building, finishing, renovation, industry, workshops, spray booths, painting work, ship maintenance etc.

### Properties:

- Absorbent
- Liquid-proof
- Wear and tear resistant
- Lint-free

### Application:

- For all completely dry surfaces

0,98m x 50m # 900047

## PrimaCover Carpet

Firm, self-adhesive liquid proof film for reliably covering carpet on floors and stairs during project fitting, building work, finishing, renovation and painting. Can be easily removed without leaving glue residues.

### Properties:

- Extra strong due to the combination of LDPE film with a top layer made of recycled polyester fibres
- Self-adhesive
- Easy to remove
- For floors and stairs
- Thickness 50µm

0,625m x 100m # 900087

For carpet

## PrimaCover Hardfloor

Firm, self-adhesive and liquid proof film for reliable protection of hard surfaces. Suitable for floors and stairs. Protects against slight damage and spilt materials. Ideal for project fitting, building work, finishing and painting.

### Properties:

- Especially for hard floors
- Self-adhesive
- Easy to remove
- For floors and stairs
- Thickness 50µm

0,625m x 100m # 900090

For hard surfaces

## PrimaCover Glass

Translucent protective film with UV-resistant adhesive for flat glass. Provides outstanding protection for numerous applications, such as building work, plastering and painting. Available in blue and transparent version.

### Properties:

- Self-adhesive
- Easy to use
- Translucent
- Usable for up to 4 weeks
- Thickness 50µm

blue: 1m x 100m # 900578 | 0,50m x 100m # 900020 | 25cm x 100m # 900701  
transparent: 1m x 100m # 900611

For windows and glass

## PrimaCover Protection Board

Covering cardboard for universal use. Ideal for finishing and renovation work such as plastering, sprayed-on plaster and painting. Protects against dirt, moisture and mechanical damage.

### Properties:

- Non-slip upper side
- Neutral execution, without imprint
- Without plastic coating, 100% recyclable

Universal covering cardboard

50m<sup>2</sup> ±130cm 150-200gr/m<sup>2</sup> # 900092 | 50m<sup>2</sup> ±70cm 150-200gr/m<sup>2</sup> # 900633

## PrimaCover Interior

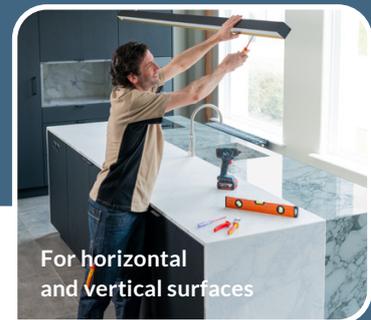

Self-adhesive double-layered non woven covering for interior builders. The advantages of a liquid proof film combined with a impact absorbent anti-slip top layer. Protects thoroughly dried hard surfaces during transport and assembly of furniture, sanitary facilities, panels and other interior objects.

### Eigenschappen:

- Self-adhesive
- Liquid proof and absorbent
- Protects against mechanical damage

### Toepassing:

- For thoroughly dried hard surfaces, such as furniture, panels, floors and stairs
- Can be applied horizontally and vertically

For horizontal and vertical surfaces

1m x 25m #900514
