

PrimaCover Airtape

Breathable seaming tape for surface protection materials

PrimaCover Airtape is specially designed for securely bonding vapour permeable and breathable surface protection materials, such as PrimaCover Active, Ram Board and PrimaCover Defend. The breathable microdot adhesive layer allows the surface to evaporate and/or harden without problems while the surface protection materials remain securely in place.

Technical data

Properties	Value
Material carrier	breathable PP non woven
Material adhesive layer	synthetic rubber
Colour	grey
Tensile strength	70N/25mm
Air permeability	750l/m ² /min
Water permeability	10l/m ² /min
Thickness	0,55 mm
Minimal temperature resistance (°C)	-20
Maximum temperature resistance (°C)	+80
Maximum shelf life	2 years after delivery

Dimensions

Itemcode	Length	Width
900818	33 m	50 mm

Remarks

Proper and successful use of the product is beyond our control. Therefore, a warranty can only be given for the quality of the product itself, not for its application. It is the user's responsibility to determine the suitability of our products for their intended purpose. Preliminary testing is recommended.

The above values are guideline values, obtained in our own/external laboratories. Minor deviations may occur due to slight variations in testing equipment. Changes without prior notice reserved.
