

PrimaCover Antistatic

Antistatic non-woven covering

PrimaCover Antistatic is an antistatic non-woven covering for professional protection against dirt during the building and conversion phase. Sensitive devices and machines are protected against electrostatic discharge thanks to the enclosed antistatic fibres.

Technical data (*)

Antistatic

Liquid-proof

For floors and stairs

Composition

Upper side

Film (antistatic)

Carrier

Synthetic fibres made of recycled, primarily industrial waste, blended with antistatic fibres

Adhesive

Acrylate dispersion

Technical data

Rolls

1 m x 25 m

Colour

White

Properties

Prevents from static discharge
Impact-absorbing
Self-adhesive
Re-usable

Application

Protects surfaces against water, paint and mechanical damages
Suitable for floors and stairs

Processing

Lanes overlap by approx. 10 cm, press seams well

Comments

Lay on thoroughly dried substrates.
Test the suitability of the product in advance.
Switch off underfloor heating before use.

We are unable to supervise the proper and therefore successful processing of the products. Therefore, we can only guarantee the quality of the products, but not of their processing. It is up to the user to check the suitability of our products for the intended purpose.

The details stated above are guideline values established in our laboratories and at external test institutes. They may deviate slightly due to variations in the testing equipment. Subject to change without notice.
